SKILLS

Languages : C++, JavaScript, Python, TypeScript

Tools : React, Node.js, BigQuery, Supabase, FastAPI, Tailwind CSS

EXPERIENCE

Data Analytics Intern - Ocean Friends

Oct. 2025 – Mar. 2026

Data Analytics Intern

- Worked with BigQuery on large-scale data; built automated email systems and support reports.
- Identified missing ERA data issue, helping recover ~**100k claims**.

PROJECTS

Prep CEX Backend | *Node.js, Express*

May 2026 – Present

- Built an event-driven perpetual futures exchange backend with an in-memory order matching engine, position management, and margin validation.
- Designed a Redis Streams-based architecture to coordinate order placement, fills, position updates, and real-time notifications across independent services.
- 🔗 prep-cex-backend.vercel.app

AI-Based Skill Recommendation System | *Python, TF-IDF, Cosine Similarity*

Feb 2026 – April 2026

- Recommends missing skills, companies, and salary insights by matching user profiles to job requirements.
- 🔗 career-compass-xi-ivory.vercel.app
- 🌐 github.com/meshreyy/career-compass

FunShiksha - Gamified Learning Platform | *Lovable, React, PWA, Node.js*

SIH 2025 · Top 45

- Offline-first multilingual PWA for rural STEM education with dynamic translation.
- Teacher dashboard for progress tracking; delivered in 3–4 days with a 6-member team.
- 🔗 zesty-valkyrie-025e82.netlify.app

OPEN SOURCE

GSSoC 2025 EventMappr Contributor

Jun. 2025 – Aug. 2025

- Implemented “Find & Book Nearby Spots” with custom map markers, smart filtering, and location refresh.
- 🔗 github.com/Bhavya1352/eventmappr/pull/309

EDUCATION

Banasthali Vidyapith University

2023 – 2026

Bachelor of Computer Applications (BCA)

Jaipur, India

- **CGPA:** 8.6

ACHIEVEMENTS

- Improved from approximately **Rank 500 to Top 10** in the TLE Eliminators Competitive Programming course.
- Selected among the **Top 45 teams** nationwide in Smart India Hackathon (SIH) 2025.
- Contributed to **GSSoC 2025**, with a feature successfully merged into the production codebase.
